- 6 - Automatic both water refill and water level
- 7 - Auto-cleaning level and easy to operate and clean
- 8 - Professional rotary pump and motor built-in
- 9 - Ergonomic steamer and water outlet in stainless steel
- 10 - Compression steam faucet
- 11 - Ceramic hot water faucet with non-splash outlet
- 12 - Lighting when working and counting water volume
- 13 - Programmable pre-infusion to do a great coffee
- 14 - Alarm control when dosage failure

TECHNICAL CHARACTERISTICS

<i>Stainless Steel Body</i>	yes
<i>Electro-valve Groups</i>	2
<i>Use of Ground Coffee</i>	one filter-holder of 1 dosage and two of 2 dosages
<i>POD System Optional</i>	yes
<i>Non-Splash Steam and Water Outlets</i>	yes
<i>Stainless Steel Steam Wands</i>	1
<i>Dosage with Microprocessor</i>	4 adjustable dosages and 1 continuous
<i>Electronic Membrane Keypad</i>	tactile sensation
<i>Heating Element LED</i>	yes
<i>Electric Connection LED</i>	yes
<i>Water Refill LED</i>	yes
<i>Water Net Pressure: Manometer</i>	yes
<i>Boiler Pressure: Manometer</i>	yes
<i>Water Net Connection</i>	thread 3/8"
<i>Boiler Heating Element</i>	2.6Kw
<i>Boiler Capacity</i>	8.0 litres
<i>Boiler Refill</i>	automatic
<i>Motor and Pump Positions</i>	interior – built in
<i>Boiler Electronic Level –LED and Level-Probe</i>	yes
<i>Boiler Pressure</i>	1 bar
<i>Pump Pressure</i>	8-9 bar
<i>Size - Dimensions</i>	LHD 560*490*540 mm
<i>Weight</i>	50 kg
<i>Warranty on Parts</i>	3 years
